

FOR IMMEDIATE RELEASE

Voltree Power Teams with Alphanetrix to Bring Energy Harvesting Solutions to Greek Market

CANTON, Mass., September 20, 2012 – Voltree Power, Inc. (www.voltreepower.com), today announced that it has signed a Memorandum of Understanding (“MOU”) with Greek systems integration company Alphanetrix. This MOU initiates an alliance through which the two companies plan to leverage Voltree Power’s energy harvesting technologies to provide practical, cost-effective and innovative sensing solutions to Greece’s agricultural, environmental and natural resource preservation. The companies will explore a range of potential commercial applications for Voltree Power’s bio-energy harvester products and solutions in the Greek market with Voltree’s EU Representative, Stratos Ketsetzis, at the helm.

Alphanetrix (www.alphanetrix.gr) provides specialized services in IT, telecommunications, the Internet, and the design of custom applications. The Company has experience in identifying promising new technology solutions from other countries, and successfully introducing them to the Greek and Albanian markets.

“As we continue to develop, test, and enhance our products in the United States, we are getting a lot of interest from other countries,” said Stella Karavas, founder and CEO of Voltree Power. “Alphanetrix’s influence and support of new technology applications will make them an ideal commercial ally for us in Greece and Albania.”

“We have found the Greek and Albanian markets to be very open to new technologies,” said Alexandros Dafilis, CEO of Alphanetrix. “Voltree Power is extremely well positioned as an early leader in the developing bio-energy harvesting space, which has the potential to help preserve our natural resources through many promising applications. We are excited to work with Voltree Power to develop these solutions.”

About Voltree Power (www.voltreepower.com)

Voltree Power leverages its patented bio-energy harvester as well as other energy harvesting technologies to provide practical, cost-effective and innovative sensing solutions for agricultural, environmental and natural resource preservation.

Voltree Power offices and manufacturing facility are based in Canton, Massachusetts U.S.A.
